

# A practical tool to help you live as an *“all of life disciple”*.

**Draw your own sphere and note the different parts of your life. Spend some time pondering:**

- How can I live my life in a way that stands out positively for Jesus in each context?
- Is there anyone that Jesus might have me come alongside?
- Is there one area that the Holy Spirit is highlighting where you can be more intentional as a disciple?

**As a way of keeping Jesus and His Kingdom as your highest priority, use these questions as a grid for deciding on further commitments:**

- What might be some of the opportunities to live as a disciple in this new context?
- Are there ways that this commitment could help me grow?
- Will it squeeze out or put pressure on my time or capacity to follow Jesus as my highest priority?
- Are there ways that it could be detrimental to being a disciple?
- Will it compete for my affection?
- If you have kids, what might your decision about this additional commitment communicate to them and what impact could it have on them following Jesus as their highest priority?
